

Quick Plumbing Group commenced trading in 1952 in Victoria. The company was founded by Frank Quick. Alan Quick (Frank's son) joined the company in 1968. The company prospered forming a strong association with The Grocon Group to carry out many large projects in Melbourne.

In 1991 Alan travelled to Sydney to carry out a contract to install the plumbing services to The Governor Phillip Macquarie Towers being built by Grocon, both of which are now considered landmark developments. Over the three years this project took Quick Plumbing Group did many other projects in Sydney.

In 1996 Alan Quick established Quick Contracting (NSW) Pty Ltd (trading as Quick Plumbing Group) as a standalone company and has since become one of the most reliable and trusted Hydraulic Contractors in NSW. The Quick Plumbing Group team has successfully completed numerous projects taking great pride in its quality and management. The Quick Plumbing Group team has the ability to offer clients a complete design and construct package with guaranteed maximum price.

Thomas Quick (Alan's son) joined the business in 1999 to continue a Family Tradition. The company continues today under his leadership with strong Family Values of Quality, Reliability, Innovation and Dependability for a growing client base. New areas of works in Facility Maintenance, Large Plant Installations, as well as the continued success in D & C Contracts for Government and the Private Sector.

The Company has built a wide client base and prides itself on strong technical skills and many years of experience. This enables the Quick Plumbing Group team to complete projects on time and within budget.

Established since 1952

Sydney Projects

Chris O'Brien Lifehouse

Client: Brookfield Multiplex
 Value: \$6.43 million
 Completed: 2013
 Location: RPA, Sydney

The 11 storey, 43,500 square metre facility includes ambulatory clinics, chemotherapy, radiation therapy, day surgery, integrative medicine, dry research, imaging facilities, pathology collection and offices. This stage also includes the construction of two floors to house in-patient beds and further research facilities. Winner of numerous worldwide competitions the building has been a huge success for the companies involved.

161 Castlereagh Street

Client: Grocon
 Value: \$3.3 and \$0.5 million
 Completed: 2013
 Location: Sydney

The 161 Castlereagh St redevelopment comprises 50 level, 44 Storey premium grade office tower. It has 55,000 square metres of office space and 3,200 square metres of retail space. Quick Plumbing Group completed the project commenced by N&D Plumbing. The long partnership history with Grocon made for a successful transition to Quick Plumbing. It incorporate the Legion House, an existing 4 level heritage building, two single level retail buildings and a large open plaza space. Grocon has achieved a 6 Star NABERS Energy rating for Legion House. Quick Plumbing installed a bespoke Vacuum

Joint Logistics Unit -

Client: John Holland / Joss JV
 Value: \$10 million
 Completed: 2014
 Location: Moorebank, NSW

The (DLTP) has modernised and enhanced Defence's warehousing and distribution functions to provide optimum support to Defence operations. Moorebank Avenue, staff car-park, vehicle check-point and guardhouse including pass office; Office building for the JLU(E) headquarters staff; General Storage Warehouse of approximately 40,000 m2; Quick Plumbing further demonstrated the ability to meet ambitious program times to assist John Holland / Joss JV on the successful delivery of this large facility.

Sydney Projects

Montrose Apartments

Client: Hindmarsh
Value: \$2.2 million
Completed: 2015
Location: North Sydney

The Montrose Apartment Development comprises of ground floor retail spaces of 5 units with a total GFA of 552m², 104 apartments over ten levels, with three levels of basement parking providing 77 car spaces plus bicycle racks. The Quick Plumbing team designed into the building an efficient solution to minimise waiting time for hot water and integrate the stormwater pipework into a very tight structure.

Port Botany Terminal #3

Client: Laing O'Rourke
Value: \$3.77 million
Completed: 2014
Location: Botany, Sydney

Quick Plumbing carried out Infrastructure works to a new Freight terminal over a 46 hectare reclaimed area with substantial structural and rail elements to support the heavy-duty quay and stacking crane systems, all constructed in difficult tidal conditions and a sensitive environment. The project demonstrates Quick Plumbing's ability to work together with lead contractors on NSW Major Infrastructure Projects in difficult conditions and deliver on key deadlines. Quick Plumbing demonstrated skill in co-ordinating various services in difficult ground conditions on a large open site with heavy rail integration and high ground loads.

Newcastle Courthouse

Client: John Holland
Value: \$2.2 million
Completed: 2015
Location: Newcastle

The new seven storey, 12,000 sqm building will be the largest and most technologically advanced NSW court complex outside of Sydney. The new high security courthouse will include 10 courtrooms and two tribunal rooms and will host sittings of the Supreme, District, Local and Drug Courts. Solar panels, energy efficient technology and the use of natural light will minimise the building's carbon footprint.

Sydney Projects

Westmead Hospital

Client: Thiess
Value: \$7.3 million
Completed: 2007
Location: Westmead, NSW

The Westmead Hospital Infill Project was a series of 5 extensions built among the existing hospital during full operation. The Quick Plumbing Team worked with the Hospital Operation Staff and Thiess to plan and stage works while maintaining all essential services throughout and to meet the Project deadlines. Numerous times throughout the project this required partial shutdowns to allow connections and diversions to live services, all resulting in successful outcomes.

The Establishment

Client: Multiplex
Value: \$3.5 million
Completed: 2000
Location: Sydney

A combination of Boutique 33 room hotel and 5 levels of Bar and Restaurants in a combination of existing and new building was an excellent challenge for the Quick Plumbing Team. The development contains the Establishment Bar, Est Restaurant, Tank Nightclub and of course the Establishment Boutique Hotel. The rooms boast Bathrooms generously laid-out with double-sinks, rain showers and the occasional soaking tub in larger room categories. The deadline for the completion of the development was challenging but met proudly by the Quick Plumbing & Multiplex Teams in time for the Sydney Olympic Games.

Governor Phillip & Macquarie Towers

Client: Grocon
Value: \$14.8 million
Completed: 1994
Location: Sydney

The two towers built in the original Government House Site in the early 90's were the first projects undertaken by Quick Plumbing in NSW. The brief called for a state of the art, high quality office building utilizing the maximum floor space within the given envelope. This resulted in the main tower having a 10 level foyer. The buildings set the benchmark standard for office buildings in Sydney since their completion. Throughout the project the goal to achieve best practice resulted in the choice of top shelf materials, fixtures and techniques.

Melbourne Projects

Crown Casino

Client: Grocon
Value: \$10 million
Completed: 1996
Location: Melbourne

Being awarded the contract for design and installation of hydraulic services to this most prestigious development in the heart of Melbourne gave us the chance to showcase our strengths, to design the program and carry out the installation while matching the builders program and budget. This was not a typical commercial building being almost a kilometer long with basements built below the Yarra water level, to the ornamental gas flares. Quick Plumbing partnered with James L. Williams to develop the design of and manage the installation of the "Seasons of Fortune" atrium water feature. Once again showing Quick Plumbing's expertise in successfully completing complex design

Rialto Towers

Client: Grocon
Value: \$5 million
Completed: 1983
Location: Melbourne

When built The Rialto Towers was the tallest building in the Southern Hemisphere. Grocon poured the structure on a 4.5 day cycle. This was achieved by a group of service companies working as a team. Such a tall building caused main design and installation issues such as getting water up the building, storing enough water. The building has 13 storage tanks installing the vertical pipe work to allow for the progressive shrinkage of this type of building. Quick Plumbing showed it can work as a team player to complete a project with a complete design and installation brief.

Hilton on the Park

Client: Grocon
Value: \$500,000
Completed: 1967
Location: Dillingham
Constructions

The 21 level Hilton Hotel was the first high rise project Quick Plumbing completed and was the start of many projects that have shaped the sky line of Melbourne. At the time it was one of the first high rise buildings completed and required that the services be capable of performing in this installation. Situated in East Melbourne overlooking the Fitzroy Gardens and the MCG. The Hilton Hotel was ahead of its time offering top levels of service and luxurious finishes to meet the Hilton brands high standards. Built by Dillingham Constructions with a brick façade and reinforced concrete structure it was built in an era when all the services were installed in cast iron and copper to a

Canberra Projects

Edmund Barton

Client: Baulderstone
Value: \$3.2 million
Completed: 2010
Location: Canberra

This Harry Seidler designed building sits in the Parliamentary Triangle in Barton close to Parliament House. It is to be the new headquarters for the Australian Federal Police from the end of 2009. The new AFP Headquarters will accommodate over 2000 staff in A Grade Quality office accommodation. Extensive work to the buildings services are being carried by Quick Plumbing including the connections to major services in the surrounding streets.

7 London Circuit &

Client: Thiess
Value: \$4.5 million
Completed: 2008
Location: Canberra CBD

The two office buildings built in the heart of Canberra business district were purpose built for a number of government tenants. Each building has rainwater capture and were designed with low maintenance and energy efficiency as the most important element of the services/ design.

Centrelink National

Client: Multiplex
Value: \$4.4 million
Completed: 2008
Location: Tuggeranong, ACT

The Centrelink building is a large office building of some 44000 square metres of office space with a large central atrium. It is a premium grade building purpose built for Centrelink. The design brief required Quick Plumbing to develop many innovative energy efficient and green features being rain water capture at a rate of 700 liters/second. Grey water recycling at 20,000 litres/day used within the building for flushing and outside for garden watering. Two solar arrays to supply at least 50% of hot water requirements. This building is an example of Quick Plumbing's ability to design and build in today's green environment.
